Profile

Logan comes to us with 7 years of teaching experience, now looking for a change of career paths. She lives with her husband and their 2-year-old daughter in Acworth. She has been a resident of Woodstock all her life, minus 2 years when her and her husband lived in Texas. Despite living in Woodstock her whole life, she did not know that Mountain Park existed until coming in for an interview. She has spent most of her childhood and adult life doing all types of things outdoors; like camping, hiking, working on her family's farm, bird watching, traveling, and visiting all the State and National Parks she can. Because of her love for all things outdoors and nature related, this job was the perfect fit for her much-needed career change.
