

My Mountain Park App

The **My Mountain Park** app allows residents to receive immediate push notifications by phone, which has proven to be particularly useful in time sensitive/emergency situations. The City of Mountain Park urges all residents to download this tool and offers IT assistance if needed. Please contact City Hall for details. To download, use the QR code seen here or search for “My Mountain Park” in the app store on your phone. In addition to push notifications, the app also offers access to the most used resources on the City website, including: news, events, Council updates, pay water bill, purchase passes, contact information for City officials, etc.

Don't miss out – download “My Mountain Park” today!

If you would like to receive email updates **ONLY** from My Mountain Park without downloading the app, please use the following link:
