

Recycling (Reduce, Reuse & Recycle)

Recycling of newspapers, aluminum cans, tins cans, plastic drink bottles and milk cartons is required of all City residents

Reduce, Reuse, Recycle

The City of Mountain Park has a great recycling program. Everyone participates, and as a result, we keep a large volume of material out of landfills. Before you recycle, try to reduce the amount you recycle by reusing items to keep them out of the recycle stream.

- Reduce the amount you recycle.
- Make wise packaging selections. Select products that are not wasteful in their packaging.
- Practice composting
- Reuse containers and products.
- Buy only what you need and use what you bought
- As much as possible, buy products with recycled content
